AT SAFAL UNIQUE METHOD OF CHILD ASSESSMENT

A differentiated outlook on child assessment for perfectly complemented curriculum

- Our teaching staff systematically observes and records information about the student's level of development and knowledge, skills, and attitudes. After determining what has been learned by students we constantly improve our teaching methods and support the student's progress.
- We observe and record all the assessments to ensure that every student meet the development objectives.
- We have the assessment software with built-in benchmarks and other algorithms that provide insights into the student's progress, interests and strengths.
- Providing a foundation for constructive feedback to the parents for the overall development of the student.

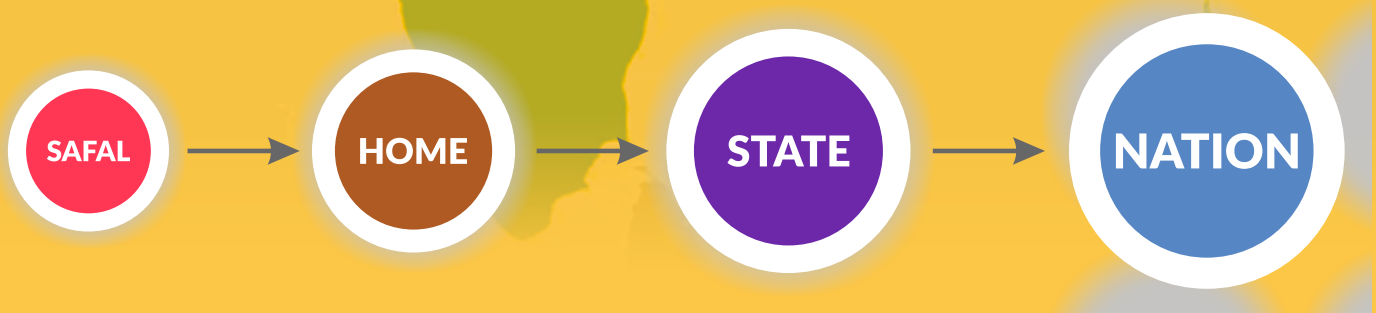

Step by Step Process for Child Assessment:

SAFAL VIDYALAY PHILOSOPHY

Knowledge Flows From

Knowledge flow refers to knowledge movements across people, organisations, places and time, depicting changes, shifts and applications. ... It is alive, social and dynamic and because of its elusive and complex nature.
